

AFSCME Public Safety Protection Plan

AFSCME continues to fight for better pay, benefits and safe workplaces, and to uphold the standard of professionalism for our public safety members across the country. This benefit provides added protection against on-the-job legal actions.

Association of California (PORAC) Legal Defense Fund is the most successful legal defense fund *run by and for* public safety members. It has been in existence since 1974 and currently has over 100,000 participants.
